

We, the undersigned, wish to clarify the following to the Board of Aldermen, the School Committee, the Mayor, the Design Review Committee, the Building Commissioner, the Public Facilities Committee and the Design Team: the perception that we supported option 4A as a site plan for the new Newton North High School at the April 25 community meeting did not reflect our opinion at that time or in the months since that meeting. Residents of Kirkstall St., Trowbridge Ave., and Walnut St., spoke up against option 4A during the early portion of that meeting, and did not feel it necessary to reiterate feelings that had not changed as the meeting concluded. We regret any inconvenience to the city and to the process of developing a safe access to the new high school that this misperception may have caused.

	462 Walnut St.

We, the undersigned, were not able to attend the April 25 community meeting regarding the NNHS building project. We wish to underscore for the the Board of Aldermen, the School Committee, the Mayor, the Design Review Committee, the Building Commissioner, the Public Facilities Committee and the Design Team our opposition to any option that places the entrance to the new school at Trowbridge Avenue. We believe that an entrance in this location is unsafe for the residents of the surrounding streets, pedestrians crossing Walnut St., and the entire Newton community.
