

# It's Time for Partners!

Young children love to learn and they are ready to learn more! Time for Partners teaches children ages 18 months to 3 3/4 through new experiences with letters, numbers, music, art and movement. Children learn through play, master new skills, and meet new friends while building self-confidence and sharing their successes with a parent or other adult of choice.

Time for Partners is a 15-week program designed for children with a parent or other adult partner. Children develop their creativity through art, music and creative movement, while reinforcing their knowledge of letters, numbers, and other basic skills.

Time for Partners provides a special time for children to play and learn with their parent or caregiver. This kind of individual attention gives children a greater sense of self-esteem and helps them develop confidence in their own skills.
