\* All data is from 1980, 1990 and 2000 U.S. Census unless otherwise noted

<sup>1</sup> The census format has changed in 2000 and the new Age breakdown is 15 to 19 years and 20 to 24 years. Therefore, to make it comparable to 1990 and 1980 censuses, the 2000 figures for these age groups were recalculated based on the totals.

<sup>2</sup> Calculated by taking persons 25 years old and over with 5 or more years of college and dividing by the total number of persons 25 years old and over with educational attainment.

<sup>3</sup> The Long Form of the Census 2000 has not been released yet and the detailed breakdown by occupations is not available.

<sup>4</sup> In combination with one or more of the races listed. As a result, the numbers may add to more than the total population because the individuals may report more than one race.
